ICCVE 2012 is the first-ever Connected Vehicles conference that gathers all the relevant communities together. During the 5-day conference, more than 2,000 experts, practitioners and policy makers from all around the world will present the latest innovations and advances on connected vehicles, share the experience and insights, forecast the trends and opportunities, and discuss the policy, economics and social implications. We are proudly and excitedly inviting you to participate in and enjoy this world-class festival.

Submission Deadlines:
- Full Papers and Short Papers: Aug 31, 2012
- Demo and Tutorial Proposals: Nov 30, 2012

The 1st International Conference on Connected Vehicles and Expo
Dec 12-16, 2012 | China National Convention Center, Beijing, China

Topics of interest include, but are not limited to:
- Wireless Communications and Vehicular Networking
- Mobile Internet, Mobility Internet and Internet of Things
- Cooperative Driving, Intelligent and Autonomous Vehicles
- Automotive Electronics and Automatic Control
- Transportation and Connected Vehicles
- Electric Vehicle and Transportation Electrification
- Geographic, Spatial and Social Information Systems
- Manufacturing and Product Safety Engineering in Connected Vehicles
- Practices, Recommendations and Standards in Connected Vehicles
- Policy, Economics and Social Implications of Connected Vehicles

Technically Sponsored by:
- ACM (Association for Computing Machinery)
- IEEE Communications Society
- IEEE Computer Society
- IEEE Consumer Electronics Society
- IEEE Industrial Electronics Society
- IEEE Intelligent Transportation Systems Society
- IEEE Vehicular Technology Society
- IEEE Standards Association
- IEEE Transportation Electrification Initiative
- IFAC (International Federation of Automatic Control)
- TRB (Transportation Research Board)
